Computer Science student, I bring three years of experience in software development and design. My academic and professional journey has equipped me with a robust skill set in various technological domains, fostering a strong foundation in both theoretical and practical aspects of computer science. This positions me to tackle complex challenges with efficiency and innovation in any tech-focused role.

EXPERIENCE

web developer

Junior   *August 2021–Present*

- *Dedicated Web Developer with a focus on front-end and back-end development, specialized in creating responsive and user-friendly websites and web applications.*
